

## Ground Rod Accessories

Part Number	Size	Wire Size (AWG)		Standard Packaging	Weight per 100 Pcs (lbs)
		max	min		
<b>Ground Rod Couplings</b>					
PC58	5/8"	-	-	10	25
PC34	3/4"	-	-	10	38
PC01	1"	-	-	10	65
<b>Direct Burial Rod Clamps</b>					
P4	1/2"	2	10	100	9
P5	5/8"	2	10	50	10
P6	3/4"	2	10	50	11
PU	1/2" - 3/4"	1/0	10	50	19
<b>Bronze Water Pipe Ground Clamps-Plated Steel Screw</b>					
PWP121	1/2" to 1"	2	10 Sol	25	19
PWP1142	1 1/4" to 2"	2	10 Sol	10	43
<b>Bronze Water Pipe Ground Clamps-Bronze Screw-Direct Burial</b>					
PWP121-DB	1/2" to 1"	2	10 Sol	10	43
<b>Cast Bronze Plated Water Pipe Ground Clamps</b>					
PWPP121	1/2" to 1"	2	10 Sol	100	17
<b>Ground Rod Driving Studs</b>					
PD58	5/8"	-	-	10	23
PD34	3/4"	-	-	10	35
PD01	1"	-	-	10	49

All values are nominal and subject to correction

### Ground Rod Couplings:

- UL/CSA listed
- Connects two copper sectional ground rods
- Tapered ends to reduce driving friction
- Constructed of high strength, corrosion resistant bronze

### Direct Burial Ground Rod Clamps:

- UL/CSA listed
- Connects grounding conductor to driven copper ground rod
- Approved for direct burial in the earth and concrete
- Contains a bronze hex headed bolt
- Constructed of high strength, corrosive resistant bronze

### Ground Rod Driving Studs:

- UL listed
- Connects to copper sectional ground rods with a coupling for driving to eliminate damage to ground rod threads
- Constructed of high strength, corrosive resistant steel with bronze plating

### Bronze Water Pipe Ground Clamps:

- UL/CSA listed
- Connects grounding conductor to driven galvanized ground rod
- Constructed of highly conductive bronze
- Steel screws plated for corrosion resistance OR Bronze screw depending on part number

### Cast Bronze Plated Water Pipe Ground Clamps:

- Connects grounding conductor to galvanized ground rod
- Die cast zinc body with brass colored plating
- Assembled with zinc plated steel screws for corrosion resistance
